

Elements

Command and Control Team

- Directs and deploys the overall activity of the CERFP
- Reports to the JTF-State and the Incident Commander

Search and Extraction Team

- Conducts casualty search and rescue operations
- Extracts victims
- Lifts and moves debris and heavy items using ropes, chains, wires or cranes (rigging)
- Uses equipment designed to support the sides of an excavation and prevent cave-ins (shoring)

Decontamination Team

- Conducts site selection
- Establishes log-in and log-out procedures
- Conducts clothing removal
- Ambulatory and non-ambulatory decontamination

Medical Team

- Performs medical triage and initial treatment
- Provides emergency medical treatment
- Stages for military and civilian evacuation
- Provides medical support to patient decontamination and search and extraction

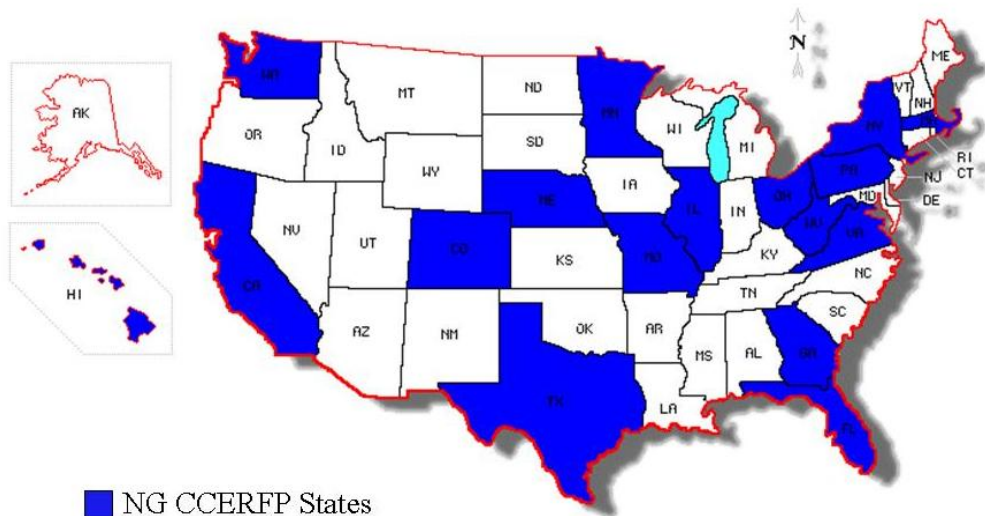

Fatalities Search and Recovery Team

- Recovers remains
- Turns remains over to Incident Command

CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR AND HIGH-YIELD EXPLOSIVE ENHANCED RESPONSE FORCE PACKAGE

NG CERFP Locations

Locations: The initial establishment of CERFP placed at least one in each of the 10 FEMA regions. As of July 2008, there are currently 17 validated CERFPs.

Mission: To provide immediate response capability to the governor including: incident site search capability of damaged buildings, rescuing trapped casualties, providing decontamination, performing medical triage and initial treatment to stabilize patients for transport to medical facilities, and remains recovery.

Overview: The CERFP is comprised of five elements staffed by personnel from already established National Guard units. Elements include: *search and extraction, decontamination, medical, remains recovery, and command and control*. The command and control team directs the overall activities of the CERFP, and coordinates with the Joint Task Force–State (JTF-State) and the Incident Commander. The search and extraction element is assigned to an Army National Guard Engineering Company or Air National Guard Red Horse Engineering Squadron, the decontamination element is assigned to an Army National Guard Chemical Company, the medical element is assigned to an Air National Guard Medical Group, and the fatalities search and recovery team is assigned to an Air National Guard Services Squadron. Security duties for the incident site and the five CERFP elements are performed by the state National Guard Response Force.
